## Commerce Department

### Industrial Visit Report

The Commerce Department of Venutai Chavan College, Karad, organized an industrial visit to Washisti Dairy, Chiplun on 17th March 2026 for the students of B.Com. Part III.

The main objective of this visit was to provide students with practical exposure to the dairy industry, understand the production process, and gain knowledge about management and marketing practices in the dairy sector.

During the visit, students were guided by the dairy officials, who explained the milk collection process, quality testing, pasteurization, packaging, and distribution system. Students also learned about inventory management, cold storage, and hygiene standards followed in the dairy industry.

The faculty members guided students throughout the visit and encouraged them to ask questions and actively participate in the learning process. The visit helped students to connect theoretical knowledge with practical applications.

The industrial visit was highly informative and beneficial, as it enhanced students' understanding of real-world business operations in the dairy industry.
